

Mathseeds in Action

Real Schools, Real Learning, Real Fun!

School: Lawrence County Schools

Teacher & Class: Ms. Burchett (Special Education)

Why did you get a Mathseeds subscription for your school? I tried the free trial and fell in love with the program. I saw my students perk up and start to enjoy math. After the trial period, I was hooked.

How do you use Mathseeds? I use Mathseeds as an intervention for students every day, even on snow days!

How has Mathseeds benefited your class? My students are learning math skills that lay the foundation for greater success later on down the road. Other teachers have shown interest in Mathseeds to use as RTI (response to intervention) for those students who are falling behind.

What features do you like within Mathseeds? I like that students can work at their own pace and that we can review skills for maintenance purposes. I use the resource materials which make differentiation and providing additional practice a breeze.

What was your students' reaction to Mathseeds? The students enjoy the characters and animations which makes them want to learn math. They even ask for it when they have free time!

What do your students like about Mathseeds? My students feel successful when they use Mathseeds! They like that they can work at their own pace. They enjoy the characters and the animations. I often hear them laughing at what is happening on the screen. They are learning and having fun at the same time.

What is your overall feedback on Mathseeds?
Awesome program!
